Testimonial for:

Mr Doug D'Aubrey

I'd like to express my gratitude for the focus & development that Doug has given me and my business in this last year...

As a local tradesman it's all too easy to ignore and to put aside the progressive momentum that any small business needs to encourage growth that leads to profit and satisfaction.

I 'enrolled' on *the Momentum Programme* 12 months ago and immediately started to run my business in a more efficient manner. Doug's first free consultation highlighted the key factors and methods of operation that needed adjusting to allow a decent 'cash flow' to be maintained on a weekly basis... This was the first of many expertly implemented processes that leave me here 12 months on, feeling in control.

I would highly recommend **Executive Training & Consultancy** to any type of business, especially if you need to make more use of your valuable time and need to fine tune in certain areas.....It's certainly worked for me and with Doug's support I look forward, with confidence, to a another successful year for my company.

Thank you Doug

Yours truly

Paul Gamston @ Empire Plumbing and Gas Services
